

233rd ECS Meeting

May 13–17, 2018

Seattle Sheraton and Washington State
Convention Center

Nanoporous Materials Symposium

- Characterization and testing
- Modeling and simulation
- Surface functionalization
- Manufacturing & advanced synthesis
- Applications in sensing, catalysis, environmental remediation, separation, energy storage, and beyond.

Invited Speakers:

Dr. Mingwei Chen, Johns Hopkins University

Dr. Petra de Jongh, Universiteit Utrecht

Dr. Omar Farha, Northwestern University

Dr. Michael Sailor, UC San Diego

Dr. Matthias Thommes, Quantachrome Instruments

Dr. Sarah Tolbert, UCLA

Dr. Bert Weckhuysen, Universiteit Utrecht

Dr. Ilya Zharov, University of Utah

*Submit abstracts at <https://ecs.confex.com/ecs/233/cfp.cgi>
(Symposium L06)*

The Electrochemical Society, www.electrochem.org

Lead Organizer: Dr. Roseanne Warren, roseanne.warren@utah.edu
